

Ward Forester Initiative

England's community forests

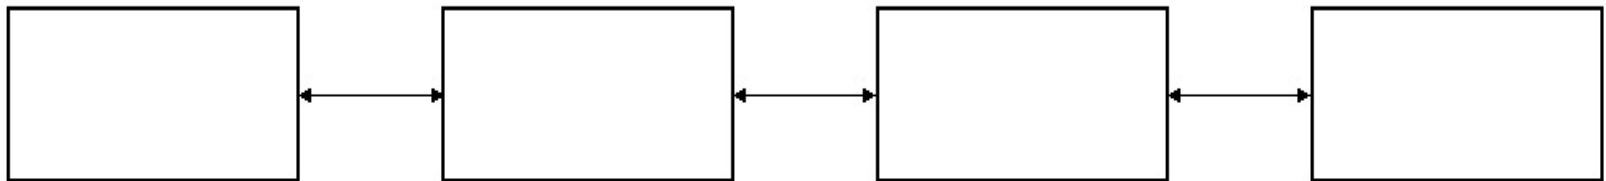

WARD FORESTER

Wealth from your Woodland

Traditional collaborative model

Diagrammatic representation of collaborative group, Arrows show direct interaction between members of the group

France

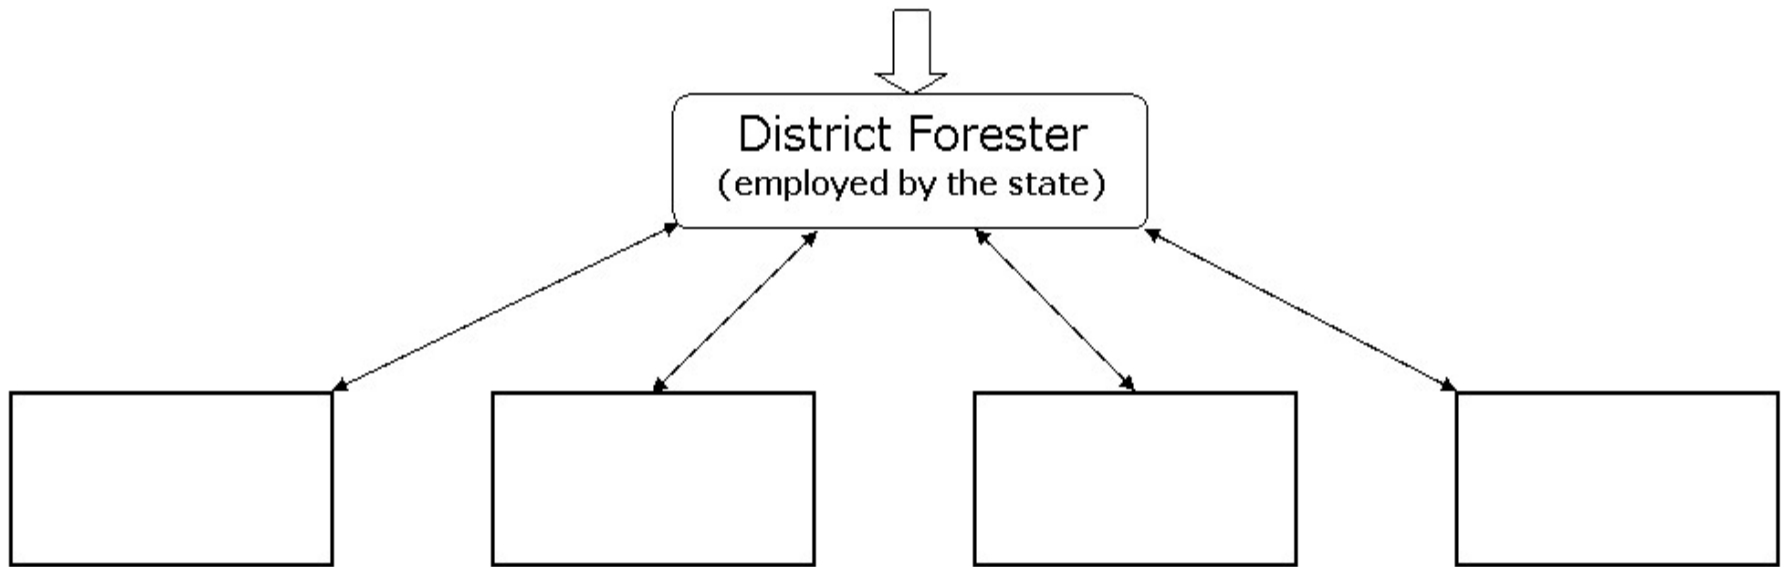

**State
administered**

Community owned woodland

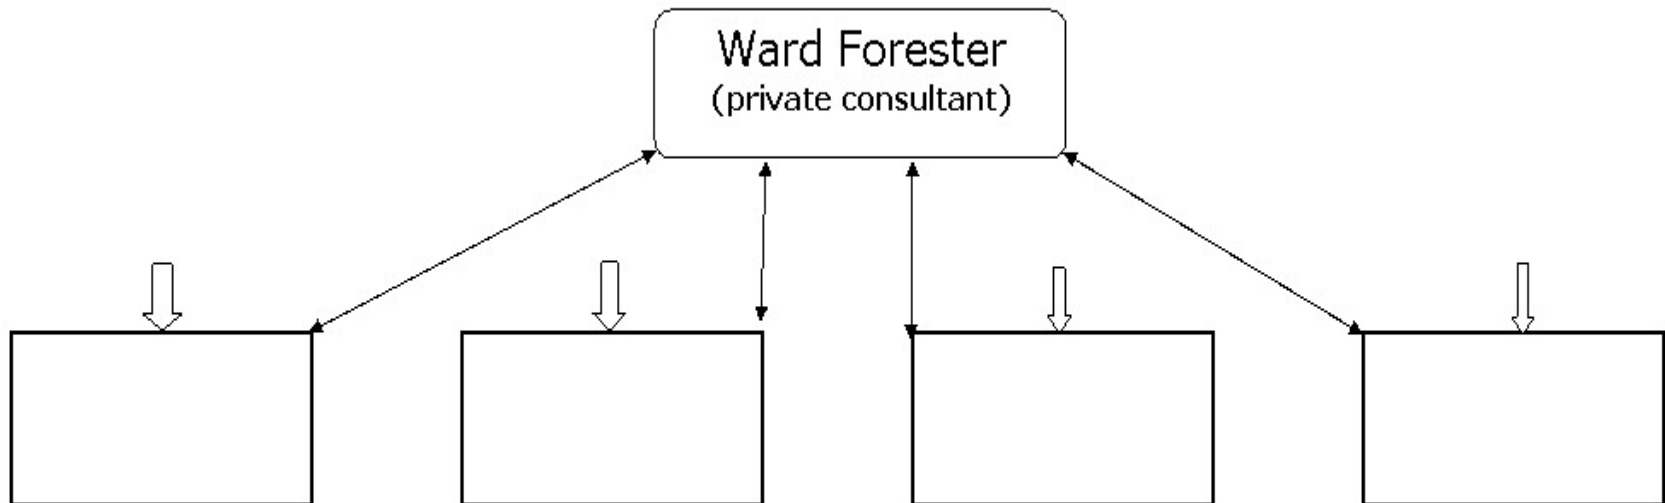

Traditionally many community owned woodlands often administered by government department

Germany

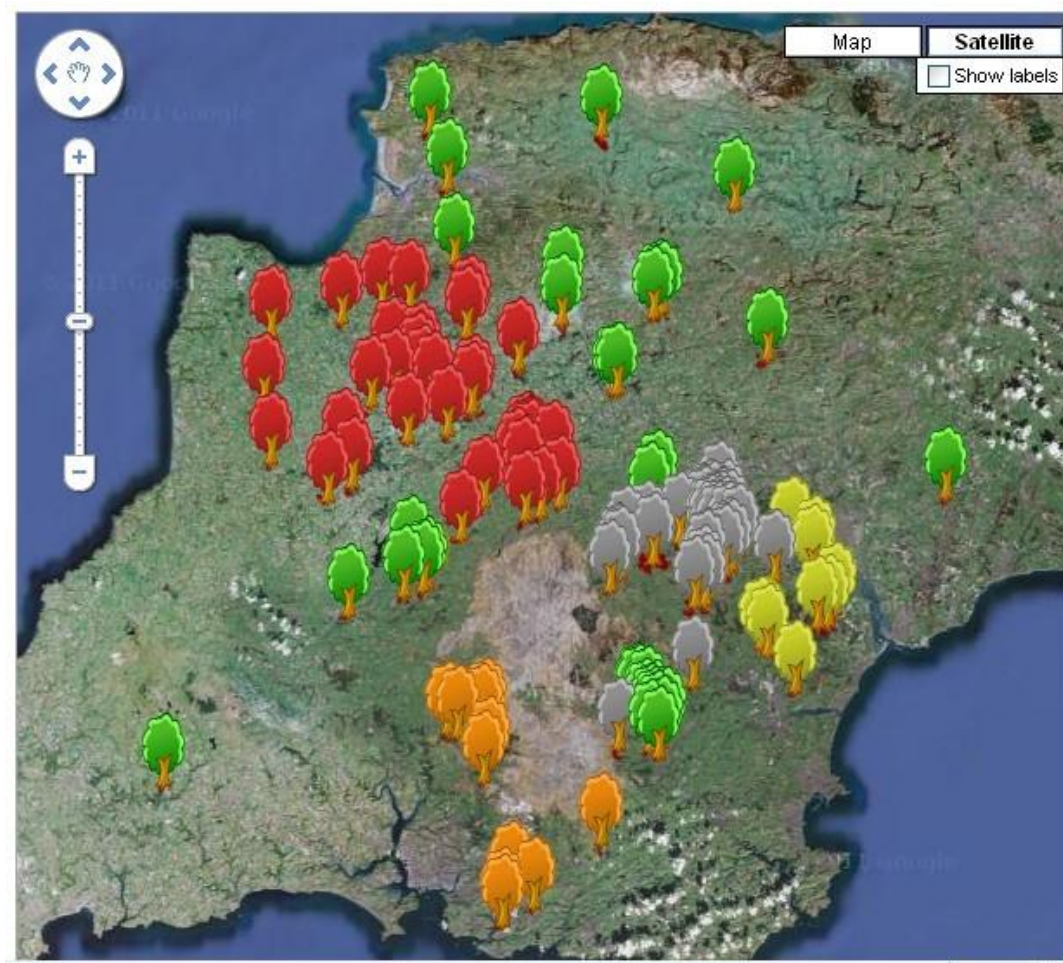

In this model the District Forester is employed by the state but fees are also charged possibly at a subsidised rate

Ward Foresters

Ward Foresters. Similar to the District Forester but led by private sector. Public funding is represented by thicker arrows
